### About Array BioPharma

Array BioPharma Inc. is a fully-integrated, biopharmaceutical company focused on the discovery, development and commercialization of transformative and well-tolerated targeted small molecule drugs to treat patients afflicted with cancer and other high-burden diseases. Array markets in the United States BRAFTOVI<sup>®</sup> (encorafenib) capsules in combination with MEKTOVI<sup>®</sup> (binimetinib) tablets for the treatment of patients with unresectable or metastatic melanoma with a *BRAF*<sup>V600E</sup> or *BRAF*<sup>V600K</sup> mutation. Array's lead clinical programs, encorafenib and binimetinib, are being investigated in over 30 clinical trials across a number of solid tumor indications, including a Phase 3 trial in *BRAF*-mutant colorectal cancer. Array's pipeline includes several additional programs being advanced by Array or current license-holders, including the following programs currently in registration trials: selumetinib (partnered with AstraZeneca), larotrectinib and LOXO-292 (partnered with Loxo Oncology), ipatasertib (partnered with Genentech), tucatinib (partnered with Seattle Genetics) and ARRY-797. Ganovo<sup>®</sup> (danoprevir, partnered with Roche) was recently approved in China for the treatment of viral hepatitis C. For more information on Array, please visit [www.arraybiopharma.com](http://www.arraybiopharma.com) or follow @arraybiopharma on Twitter and LinkedIn.
