A replay of the presentation will also be accessible under the "Investors/Investor Calendar" section of the website at www.arraybiopharma.com.

About Array BioPharma

Array BioPharma Inc. is a fully-integrated, biopharmaceutical company focused on the discovery, development and commercialization of transformative and well-tolerated targeted small molecule drugs to treat patients afflicted with cancer and other high-burden diseases. Array markets BRAFTOVI[®] (encorafenib) capsules in combination with MEKTOVI[®] (binimetinib) tablets for the treatment of patients with unresectable or metastatic melanoma with a *BRAF*^{V600E} or *BRAF*^{V600K} mutation in the United States and with partners in other major worldwide markets. Array's lead clinical programs, encorafenib and binimetinib, are being investigated in over 30 clinical trials across a number of solid tumor indications, including a Phase 3 trial in BRAF-mutant metastatic colorectal cancer. Array's pipeline includes several additional programs being advanced by Array or current license-holders, including the following programs currently in registration trials: selumetinib (partnered with AstraZeneca), LOXO-292 (partnered with Eli Lilly), ipatasertib (partnered with Genentech), tucatinib (partnered with Seattle Genetics) and ARRY-797. Vitrakvi[®] (larotrectinib, partnered with Bayer AG) is approved in the United States and Ganovo[®] (danoprevir, partnered with Roche) is approved in China. For more information on Array, please visit www.arraybiopharma.com or follow @arraybiopharma on Twitter and LinkedIn.

BRAFTOVI[®] and MEKTOVI[®] are registered trademarks of Array BioPharma Inc. in the United States and various other countries. Vitrakvi[®] is a registered trademark of Bayer AG. All trademarks are properties of their respective owners.
